...the hospital of choice for local people

The Whittington's Day Treatment Centre is a brand new healthcare facility based at the Whittington Hospital, designed to put your needs first, providing pre-planned surgery and diagnostic procedures for NHS patients. We choose day surgery whenever possible, as it minimises the amount of time you need to spend in hospital, as well as faster recovery, reducing the disruption to your daily life.

The Whittington's Day Treatment Centre has four state of the art operating theatres and three endoscopy treatment rooms, plus an interventional imaging suite and minor procedure room, putting the hospital at the forefront of day treatment surgery in London.

We know that day surgery is popular with patients and with the opening of our state of the art Day Treatment Centre we are able to increase both the number and type of procedures performed.

Procedures are undertaken across all specialties including:

- Gastroenterology
- Urology
- Diagnostic cardiology
- General surgery
- Orthopaedics
- Gynaecology
- ENT
- Interventional imaging
- Ophthalmology

Why you should choose the Whittington Day Treatment Centre

- At the Whittington Day Treatment Centre we believe we can provide a superior patient experience. You are the central focus of the care we provide, from your arrival to the follow up when you go home
- We only do pre-planned procedures so your scheduled visit will be for a time that suits you
- The best NHS treatment in the largest purpose-built day treatment centre in North London. Our surgeons and anaesthetists are experienced NHS staff who will be using the most up to date equipment and techniques. We are recognised by the Department of Health and the British Association of Day Surgery as being one of the leading providers of day surgery in the country
- Friendly and personal care. Our staff will explain things to you on your arrival and give you full advice when you are ready to go home

- A modern, clean environment. At the Whittington Hospital we have strict anti-infection procedures and great care is taken to reduce the risk of infection at every stage of your treatment. All staff have undertaken infection control training. Regular national and local environment surveys reflect our ever-improving standards of cleanliness.

Where is the Day Treatment Centre

It is situated on level 3 of the hospital (see map). Enter the hospital from the main entrance on Magdala Avenue and take an 'A' lift to level 3. Turn left out of the lift and go past the Imaging Department reception. The Day Treatment Centre reception desk is directly in front of you.
