

Maternity Services

We're here for you from the very start of your pregnancy through to the birth of your baby and beyond.

The Birth Centre

One to one care from an experienced midwife in labour

Providing holistic care utilising a range of non-pharmacological methods of pain relief including water immersion, TENS and acupuncture, along with drugs such as entonox and diamorphine.

Post natal care on the BC, including the Neuro-Behavioural and physical assessment (NBPAN) of the newborn and Newborn Hearing Screening.
