Haringey Community Stroke Rehabilitation Service

A brief guide to staff roles

Patricia: Speech and language therapist

You can ask me questions about:

- * difficulties you are having with your speech, understanding and expressing yourself;
- * concerns with eating and drinking in regards to chewing and swallowing.

Sandra: Occupational therapist

You can ask me questions about:

- * recovering daily life skills. Your stroke may have caused difficulties that get in the way of everyday life tasks such as getting washed and dressed or preparing meals. These can include changes in your physical ability (e.g. using your arm), thinking skills, mood, fatigue or confidence;
- * regaining independence and getting back to your work or hobbies;
- * equipment and home environment.

Ceri and Anthony: Physiotherapists

You can ask us questions about:

- * exercises to help with muscle strength, muscle tightness, joint movement and balance;
- * walking and walking aids;
- * positioning and posture;
- * splints and orthotics.

Ljuba: Rehabilitation Technician

I can support you with:

- * practicing therapy programmes. This could include empowering you to complete exercise programmes or get back to everyday activities that are important to you;
- * working towards your goals;
- * accessing community groups.
