### Referral Pathway

The child meets the inclusion criteria of Hospital at Home and you would like to refer them

Call the Hospital at Home mobile number to discuss a potential referral (you must speak to a nurse before sending the referral)

**07557 202 900**

If the Hospital at Home team accepts the referral then send the completed referral form, discharge summary and drug chart to:

[whh-tr.PaedsHospitalatHome@nhs.net](mailto:whh-tr.PaedsHospitalatHome@nhs.net)

### Hospital At Home (H@H) Team for West Haringey

Hours of service 08:00-22:00

### Inclusion Criteria (Conditions):

**All children referred MUST have one of the following working diagnoses and be known to a Whittington Consultant.**

- Gastroenteritis
- Resolving Sepsis (discharged from CAU or ward)
- Infections requiring IV antibiotics
- Cellulitis
- Periorbital Cellulitis
- Pneumonia
- Infected Eczema
- Feeding: Transition to bolus feeds/normal feeding (Typically discharged from ward)
- Babies with jaundice discharged from ward or Paediatric Emergency Department or on the midwifery referral pathway.
- Croup
- Asthma exacerbation
- Viral Induced Wheeze
- Diarrhea and vomiting
- Long term condition plus **viral upper** respiratory tract infection (e.g. congenital cardiac condition+ URTI where feeding or breathing maybe affected)
- Bronchiolitis
- Febrile convulsion
- Neonate with feeding difficulties

**Any diagnoses not on this list will be considered after discussion with the Hospital at Home nurses on shift.**
