

Infection Control Summary Report: Updated to 6th March 2009

Headline Information:

For the week ending 6th March, there have been **0** new incidents of MRSA and **2** new incidents of C-diff.

A step change has been added to the C-diff SPC to reflect the drop in numbers.

Please note that March's figures are incomplete.

-C-diff performance in 2008/09 is measured against all patients aged over 2 years, excluding GP community samples and patients diagnosed in the first 48 hours of admission.
