% Dissatisfied Complainants	11%	9%	14%	9%

**Patient Survey: Net Promoter Score**

High is good

**Inpatient**

High is good

**Outpatient**

High is good

**Emergency Department**

High is good

Standard: Target to be within normal SPC parameter AND progress to an upward step change  
 Source: Local Whittington surveys (CRT)

NPS (Net Promoter Score) is graded 0-10 by respondents.  
 0-6 = Detractor, 7-8 = Passive, 9-10 = Promoter  
 NPS is calculated by subtracting the number of detractors from the number of promoters, dividing the resulting figure by total responses, and showing the result as a percentage.  
 Net promoter scores range from -100% to 100%.

**Patient Survey: Key Questions**

Percentage of patients trustwide who rated their care in the top two of five categories for the following questions:

High is good

High is good

**Overall how did you rate the care you received?**

**Were you involved as much as you wanted to be in the decisions about your care?**

High is good

High is good

**Did you feel you were treated with dignity and respect?**

**Please rate the cleanliness of the hospital**
