

Month 10 – January 2013 Whittington Health Performance Dashboard Exception Report

Rationale: RED YTD and/or RED in-month AND Data quality/development items are selected/referenced as an exception to Dashboard completeness below

Indicator	Jan 13	YTD	Target	Comment/ Description of issue	Actions planned/taken to achieve target	Target date / trajectory	Accntbl./Rspnsbl. Officer for Action
WORKFORCE							
Sickness	3.0%	3.1%	<3%	See Below	See Below		
				Work is ongoing to ensure that the time lag issue identified in the last exception report is resolved.	All staff on long term sickness have actions to plans to enable them to return to work soon, or to look at alternative ways forward. Within surgery all of the high Bradford scoring staff members have an agreed action plan in place with their operational manager and HR lead to address sickness rates.	On-going	1. Paul Campbell 2. Mary Jamal
Appraisal	45%	NA	90%	See Below	See Below		
				Target is based on appraisals recorded on ESR. The poor performance is due to a combination of reasons – in many cases appraisals are being carried out but not recorded. This process is now being closely performance managed with lists of ESR appraisal recording by line manager circulated to divisions. Target to achieve 90% by end of March	Dirs. Ops. will ensure that all data is up to date. ESR super users to be designated and trained in each division to support recording on ESR Learning and Development team are inputting any available backlog data on behalf of managers Multiple messages to all staff have gone out reminding them of the requirement to complete their appraisal and ensure that it is recorded Similar approach to mandatory training in terms of emails sent to all staff showing appraisal status. Support for managers with very large numbers of staff (>15) to complete their appraisals Standing item at TOB for department level performance management	End of Jan Ongoing Ongoing Complete Ongoing Complete	Div. Dirs. Operations Charlotte Johnson Comms/Margaret Boltwood Anita Garrick Div. Dirs. Operations Maria Da Silva
Mandatory Training	84%	NA	90% (Dec'12)	See below	See below		
				Staff turnover is accounted for by the 90% target.	1. An e-learning suite of PCs has been opened fr any member of	All ongoing	Paul Campbell

Indicator	Jan 13	YTD	Target	Comment/ Description of issue	Actions planned/taken to achieve target	Target date / trajectory	Accntbl./Rspnsbl. Officer for Action
				<p>Target for December 12 not met.</p> <p>Key gaps remain in Facilities directorate. A barrier is the fact that many staff do not do any day shifts so special training is being organised at night.</p> <p>Information Governance:</p> <p>2. IG Training at 95% is a condition of level 2 of the Information Governance Toolkit which is a prerequisite for achieving FT status. The deadline for achieving this is 28th March.</p>	<p>staff to use at Crouch End and</p> <p>2. Weekly information is made available to all staff and managers</p> <p>3. All managers have been asked to ensure they are rostering training time for staff</p> <p>4. Face to face training sessions have been held/are arranged to supplement the e learning available. Information is publicised through CEO briefing; Whittington Bulletin; screen savers; Learning and Development bulletin. 7 directorates are now over 90%.</p> <p>5. Special evening and night time training for facilities staff.</p> <p>6. Team level management of Mandatory Training recording with individual staff follow up. Monitoring at monthly management meetings and in 1:1s</p> <p>1. For those staff who are unable to complete their refresher Information Governance training on-line, a programme of face to face training will be rolled out from the 19th February. The programme will cover 14 days with over 80 sessions (approximately 30 minutes per session) targeting employees who are out of compliance or will be out of compliance by 31st March. Publicity about these sessions will be publicised</p>	<p>End of March</p>	<p>Phil lent</p> <p>Dir Ops and Charlotte Johnson</p>

					<p>through CEO briefing; Whittington Bulletin; screen savers; Learning and Development bulletin.</p> <p>2. Line managers are being provided with lists of staff whose training is due.</p>		
NATIONAL TARGETS							
Patients in ED for < 4 hours	94.5%	94.97%	95%	See Below	See Below		
				<p>Performance continued to be poor for the first two weeks of January. High acuity and specific periods (lasting hours) of high volumes. We did not meet the target for January and YTD performance at 18th Feb is 94.92%.</p> <p>The full action plan presented to NHS London in October remains relevant and the requirement is to continue to implement and embed those actions.</p> <p>The following issues were identified as key drivers of poor performance:</p> <ul style="list-style-type: none"> • Consistency of leadership • Raising awareness of performance • Improving time to treatment • Flow management in the evenings • Speciality response times <p>These issues are all being addressed by the action plan. The actions in the next column are a high level selection of those actions.</p>	<p>In summary, ongoing work focuses on three areas:</p> <ol style="list-style-type: none"> 1. Reduce time to treatment (Current mean 80-90 mins, need 60 minutes) by introducing a "Rapid Assessment and Treatment Model" by which every patient arriving at the major's area is seen by a senior medical officer on arrival. 2. Introduce 'hot floor' concept and optimize the impact of new rota. This improves joint working / flow between ED and Acute Medicine. This helps admission avoidance by ensuring fast track consultant decisions 3. Focus on floor leadership competences and queue management. This includes building on the introduction of internal professional standards which happened last month. <p>In addition winter pressures funding was received from NHS London (£108,000) which is being used to fund extra consultant and middle</p>	<p>Ongoing</p> <p>Ongoing</p> <p>Ongoing</p> <p>Complete</p>	<p>Carol Gillen (Dir Ops – ICAM)</p>

					- To liaise with local GP practices to ensure GPs are referring breast symptomatic patients with appropriate information.	TBC	TBC
% of Inpatients with Delayed Transfer of Care	3.7%	2.2%	<3.5%				
				<ul style="list-style-type: none"> - Primary reason for increase was the large number of patients awaiting further non-acute NHS care (rehabilitation, intermediate care or step down) and lack of available beds. This was across the five main boroughs the Trust takes patients from. - Other main reasons were placement in a care home (identifying a home and waiting for the home to assess) and - Family choice (largely related to identifying a care home or suitable placement) 	<ul style="list-style-type: none"> - Embedded 3 x weekly Waits Escalation Meeting (matrons from all areas bring DTOCs or potential delays/internal waits and actions to resolve are agreed). This includes an escalation process to senior managers or directors, and externally. Standard Operating Procedure for this currently being completed. - Investigated purchase of additional beds at St. Pancras (for step down awaiting rehab) was not possible currently. - Review of patients in Islington Intermediate Care beds brought forward discharge date where possible - to release capacity. - Social worker proactively working to ensure no delays in discharge from St. Pancras rehabilitation beds. - Have changed process in Islington to start identifying suitable care homes for family to look at earlier in the discharge pathway. 	<p>End of Feb</p> <p>Complete</p> <p>End of Feb</p> <p>Ongoing</p> <p>Complete</p>	Carol Gillen / Delia Thomas
Pregnant women seen	86.6%	89.4%	90%

within 12 wks and 6 days							
				<p>Further investigation has suggested that the Trust books all women who choose to be booked in time, but that some women are not declaring themselves as pregnant to a health professional early enough.</p> <p>In January there were a large number of bookings (100 above average). Excluding patient choice and DNA, there was only one delayed booking that was direct responsibility of WH.</p>	1. There is a report now split by team established to support minimisation of delay in bookings.	January 2012	Dee Hackett / Claire O'Connor
QUALITY							
Complaints response < 25 working days	33.3%	60.1%	80%	See Below	See Below		
N.B Dec 12 DATA				<p>Performance has dropped again between November and December and is still well below target. Ongoing capacity issues in a slight decrease in response times in year to date. Reasons for this are unchanged and have a cumulative effect.</p> <p>Increasing number of complaints.</p> <p>Lack of capacity within divisions to respond within agreed timescale</p> <p>Members of staff not usually involved in formal responses asked to lead on whole process.</p>	<ol style="list-style-type: none"> 1. Complaints investigation training delivered - further training arranged for January 2013. 2. Detailed action plan to reduce number of complaints has been developed and will be monitored by PEC. 3. 3/12 additional capacity provided to PALS and Complaints team to provide additional support to Divisions to manage backlog. 4. Operations allocating capacity to ensure back on track Sept for Oct D/Board – challenges are in SCD and ICAM and they have recruited and will be in post in November - carried over 	Complete	Cassie Williams / Jennie Williams Div.
