Community Dental Service Camden and Islington

A patient's guide

Welcome to Whittington Health Community Dental Service, Camden and Islington

A dental service for adults and children with complex needs

This leaflet provides information on

- Who can use the service?
- How to make an appointment
- What to do in an emergency
- Your Rights & Responsibilities
- How to contact us

We provide dental care only to certain groups of patients:

Children: who are very anxious or uncooperative, children with disabilities or medical conditions requiring special care.

Adults: with complex needs, such as severe learning disabilities, physical disabilities or mental health problems and adults and older people with medical conditions who need additional care, housebound and homeless people.

Additional specialist services: We can also provide treatment under sedation and do home visits.

Patients must be referred to the service, by a dentist or other health and social care professional. Referral forms can be obtained from our website or by ringing the Community Dental Service on: **020 3316 8353**

Email: dentalreferral.whitthealth@nhs.net

What should I do if I need an interpreter? If you need a language or sign language interpreter, this can be arranged for you. Contact the service or let your dentist know.

We will not normally treat patients who can be treated by a general dentist (GDP). If you do not fall into one of the categories above, you will be given a list of local NHS dentists.

Reminders and recalls

At the end of your treatment, your dentist will discuss when you will need to see a dentist again. You will attend as often as is needed to keep your teeth and gums healthy and may no longer need a check-up every six months.
